

PIN-01 Pinhole Inspection Box

Application

It is used for observing the number and size of pinholes in aluminum foil under the specified environment and light source.

Features

- Original Philips light source
- Diffuse reflection design

Technical Indexes

- Observation size: 400mm×250mm
- Application environment illumination: 20Lux~50Lux
- Power: ≥ 30W
- Eyepiece magnification: 10X
- Objective magnification: 10X
- Measure the smallest division value: 0.01mm
- Power supply: AC 220V 50Hz
- Dimension: 800mm(L)×600mm(B)×300mm(H)
- Net weight: 39kg

Standard

YBB00152002-2015、GB/T22638.2-2008

Configuration

Standard Configuration: Mainframe, Microscope
